**MEMORANDUM ON THE OBJECTS OF THE CHOICE ON
TERMINATION OF PREGNANCY AMENDMENT BILL**

1. OBJECTS OF BILL

The objects of the Bill are to—

- (a) allow registered midwives and registered nurses, who have undergone the prescribed training, to perform terminations of pregnancy;
- (b) do away with the designation by the Minister of facilities where termination of pregnancy may take place, which is a lengthy process, and to empower the Member of the Executive Council of a province responsible for health in that province to approve those facilities;
- (c) allow all public and private facilities that have a 24-hour maternity service to terminate pregnancies of up to and including 12 weeks without seeking approval from the Member of the Executive Council concerned;
- (d) empower the Member of the Executive Council concerned to prescribe by regulation the requirements and conditions applicable to facilities where termination of pregnancies may take place; (For the purposes of consistency, the Minister must approve the regulations before they are implemented.)
- (e) require the Member of the Executive Council concerned to report annually on the number of facilities approved by him or her;
- (f) require the relevant heads of provincial departments to submit certain prescribed information to the Director-General of Health; and
- (g) make it an offence for any person to terminate a pregnancy unlawfully or allow a termination of a pregnancy at a facility which has not been approved.

2. CONSULTATION

The Bill was published for public comment in the *Gazette*. Since the amendments do not involve a major policy shift, the Department considered only the comments received.

3. FINANCIAL IMPLICATIONS FOR STATE

Save for the expected increase of applications for termination of pregnancy, which will lead to a slight increase of individual hospital budgets, major financial implications are not expected. The costs involved should be covered by the general budget allocation to the facilities.

4. PARLIAMENTARY PROCEDURE

The State Law Advisers and the Department of Health are of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 76(1) or (2) of the Constitution since it falls within a functional area listed in Schedule 4 to the Constitution, namely "Health services".
