Subject: Weather Act Amendment

To whom it may concern

I would like to register my concern regarding the proposed amendments in the weather act.

I receive information regarding weather from sources that don't include the South African weather Bureau. I would like to still have free access and be free to comment on a subject that nobody has a right to control information about THE WEATHER. I breathe it and I see it and I experience it and it is my right to discuss what is around me with other like minded individuals.

Thank you for the opportunity to register my objection

Kind regards  
Tanis
